Python for Data Science Practical

Practical - V

Roll No. : S002	Name: Kaif Ansari
Class : SY.BSC.IT	Batch : 1
Date of Assignment : 12/08/2026	Date/Time of Submission : 12/08/2026

Part – A Theory

5a https://www.w3schools.com/python/pandas/ref_df_filter.asp

5b https://www.w3schools.com/python/module_statistics.asp

5c
<https://www.geeksforgeeks.org/python/creating-a-pandas-series-from-dictionary/>

5d <https://www.geeksforgeeks.org/pandas/boolean-indexing-in-pandas/>

PART – B Practical Questions:

5a. Write a python code to demonstrate importing pandas libraries and create data frame object.

Input:-

```
import pandas as pd

data = {
    "name": ["Kaif", "Aryan", "Aditya"],
    "age": [19, 20, 21],
    "qualified": [True, False, False]
}
df = pd.DataFrame(data)

print(df)

print("Kaif S002")
```

Output:-

```
   name  age  qualified
0  Kaif   19        True
1  Aryan  20        False
2  Aditya 21        False
Kaif S002
|
```

5b. Write a python code to show statistical information on given data set.

Input:-

1:-

```
# Import statistics Library
import statistics

# Calculate average values
print(statistics.mean([11, 31, 51, 71, 91, 11, 13]))
print(statistics.mean([11, 13, 15, 17, 19, 11]))
print(statistics.mean([-11, 5.5, -3.4, 7.1, -9, 22]))

print("Kaif S002")
```

2:-

```
# Import statistics Library
import statistics

# Calculate average values
print(statistics.median([11, 31, 51, 71, 91, 11, 13]))
print(statistics.median([11, 13, 15, 17, 19, 11]))
print(statistics.median([-11, 5.5, -3.4, 7.1, -9, 22]))

print("Kaif S002")
```

3:-

```
# Import statistics Library
import statistics

# Calculate average values
print(statistics.mode([11, 31, 51, 71, 91, 11, 13]))
print(statistics.mode([11, 13, 15, 17, 19, 11]))
print(statistics.mode([-11, 5.5, -3.4, 7.1, -9, 22]))

print("Kaif S002")
```

4:-

```
# Import statistics Library
import statistics

# Calculate average values
print(statistics.mode([11, 31, 51, 71, 91, 11, 13]))
print(statistics.mode([-11, 5.5, -3.4, 7.1, -9, 22]))
print(statistics.stdev([1, 30, 50, 100]))

print("Kaif S002")
```

5:-

```
# Import statistics Library
import statistics

# Calculate the variance from a sample of data
print(statistics.variance([1, 3, 5, 7, 9, 11]))
print(statistics.variance([2, 2.5, 1.25, 3.1, 1.75, 2.8]))
print(statistics.variance([-11, 5.5, -3.4, 7.1]))
print(statistics.variance([1, 30, 50, 100]))

print("Kaif S002")
```

Output:-

1:-

```
39.857142857142854
14.333333333333334
1.8666666666666667
Kaif S002
|
```

2:-

```
31
14.0
1.05
Kaif S002
|
```

3:-

```
11
11
-11
Kaif S002
|
```

4:-

```
11
-11
41.67633221226007
Kaif S002
|
```

5:-

```
14
0.47966666666666663
70.80333333333333
1736.9166666666667
Kaif S002
|
```

5c. Write a python code to create pandas series from dictionaries.

Input:-

```
# import the pandas lib as pd
import pandas as pd

# create a dictionary
dictionary = {'Kaif': 21, 'Jasad': 20, 'Aryan': 19}

# create a series
series = pd.Series(dictionary)

print(series)

print("Kaif S002")
```

Output:-

```
-----
Kaif      21
Jasad     20
Aryan     19
dtype: int64
Kaif S002
|
```

5d. Write a python code to demonstrate filter pandas series with Boolean arrays.

Input:-

1:-

```
# importing pandas as pd
import pandas as pd

# dictionary of lists
dict = {'name': ["Kaif", "Jasad", "Aryan", "Aditya"],
        'degree': ["MBA", "BCA", "M.Tech", "MBA"],
        'score': [60, 70, 65, 70]}

df = pd.DataFrame(dict, index = [True, False, True, False])

print(df)

print("Kaif S002")
```

2:-

```
# importing pandas as pd
import pandas as pd

# dictionary of lists
dict = {'name': ["Kaif", "Jasad", "Aryan", "Aditya"],
        'degree': ["MBA", "BCA", "M.Tech", "MBA"],
        'score': [60, 70, 65, 70]}

df = pd.DataFrame(dict, index = [True, False, True, False])

print(df)
|
# accessing a dataframe using .loc[] function
print(df.loc[True])

print("Kaif S002")
```

Output:-

1:-

```
      name  degree  score
True   Kaif    MBA     60
False  Jasad    BCA     70
True   Aryan  M.Tech    65
False  Aditya   MBA     70
Kaif S002
|
```

2:-

```
      name  degree  score
True   Kaif    MBA     60
True   Aryan  M.Tech    65
Kaif S002
```
